pursuant to Rule 14 of the Rules of Procedure

on the steel industry in Wales

The European Parliament,

- having regard to the evidence given to the House of Commons Committee on Welsh Affairs on 10 March 1980,
- 1. Expresses its concern at the prediction that the number of unemployed in Wales could rise to 125,000 following the projected steel and coal closures, thus raising the unemployment rate in Wales to 13.5%;
- 2. Instructs its President to forward this resolution to the Council and Commission.

JUSTIFICATION

Urgency is justified by the fact that the above information has become available since the decision of the European Parliament not to debate the British steel crisis during the present part-session.
